

**Leibniz Centre for Agricultural Landscape Research (ZALF), working group Sustainable Land Use in Developing Countries** offers a

### **Master Thesis Project (Masterarbeit)**

in the frame of **PRO-PLANTEURS-Recherche II: Accompanying research on strategies for improving farmer families' incomes and sustainable cocoa production**. The purpose of the project is to provide scientific evidence to increase the effectiveness and efficiency of the development project PRO-PLANTEURS which focuses on the expansion of sustainable cocoa production in Côte d'Ivoire. To support the project's research activities, we seek a Master student to work on the following topic:

### **Market potential analysis for the introduction of carbon certificates in the Ivorian cocoa sectors as an additional income strategy for small-scale farmers**

#### **Requirements**

- For the time of the Master thesis project, applicants need to be enrolled at a university in Germany, Côte d'Ivoire or abroad.
- A very good knowledge of French and English is expected.
- Experience with primary data collection (e.g. interviews, focus groups) is an asset but no must.
- Willingness to travel to and in Côte d'Ivoire for field research is expected.

#### **We offer**

- Master students will be integrated in an interdisciplinary and international project team.
- The work place is flexible.
- (Co-) Supervision for the completion of the Master thesis will be provided by ZALF.
- Travel costs relating to the Master thesis research will be covered by project funding.
