

Dr. Undine Behrendt

Professional experience

- 2018 - present Working group Microbial Biogeochemistry
Scientific staff RA1 “Landscape Functioning”
Leibniz Centre for Agricultural Landscape Research (ZALF) Müncheberg
- 2006 - 2017 Scientist at the Institute for Landscape Biogeochemistry of the Leibniz
Centre for Agricultural Landscape Research Müncheberg
- 1992 - 2006 Scientist at the Institute of Primary Production and Microbial Ecology of
the Leibniz Centre for Agricultural Landscape Research Müncheberg -
branch Paulinenaue
- 1986 - 1991 Research fellow at the Institute of Forage Production Paulinenaue,
Academy of Agricultural Sciences of GDR

Education

- 2000 PhD at the Faculty of Agricultural Sciences, Nutritional Sciences, and
Environmental Management of the Justus Liebig University Giessen
(Microbial communities in the phyllosphere of grasses on fenland at
different intensities of management)
- 1981 - 1986 Studies in agriculture at the Martin-Luther-University Halle-Wittenberg,
Master in agricultural science (plant breeding and seed production)
