

Dr. rer. nat. Katrin Kuhls

Career development

- since 2019 Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg, Research Platform Models & Simulations
- research assistant
- 2012 - 2019 Wildau University of Applied Sciences, Department of Engineering and
Natural Sciences, Molecular Biotechnology and Functional Genomics
- research assistant
- Assistant lecturer
- 2001 - 2010 Charité Universitätsmedizin Berlin, Institute for Microbiology and
Hygiene (IMH), Parasitology Section
- research assistant
- since 1998 freelance work as a sworn translator and interpreter for Polish,
medical, technical and scientific terminology
- 1990 - 1997 Humboldt-University of Berlin, Institute of Genetics, Division of
Molecular Mycology
- research assistant

Education and academic degrees

- 1997 Doctorate (**Dr. rer. nat.**) in the field of genetics, Humboldt University of
Berlin
- 1991/92 Research stay, Dept. of Microbiology and Immunology & Dept. of
Botany, Duke-University Medical Center, Durham, North Carolina, USA
- 1990 **Degree in Biology**, specialization in molecular biology, University of
Warsaw, Poland
- 1985-1990 University of Warsaw, Biology

Scientific functions

- 2015 - 2016 Member of the Internal Advisory Board of the National Research
Platform for Zoonoses
- 2014-2016 Development and management of the S2 laboratory at the Technical
University of Wildau

Memberships in academic and professional associations

- National Research Platform on Zoonoses
- German Society for Parasitology (DGP)
- International Commission for Taxonomy of Fungi (ICTF) "Trichoderma working group" (1992-1998)
- Member of the German Federal Association of Interpreters and Translators (BDÜ)

Peer review for professional journals

- International Journal of Parasitology
- Microbes and Infection
- Eurosurveillance
- BMC Microbiology
- Tropical Medicine and International Health
- Infection, Genetics and Evolution
- American Journal of Tropical Medicine and Hygiene
- Parasite
- PLoS Neglected Tropical Diseases
- Experimental Parasitology

Stays abroad and leading international workshops

02+07/2016	Armenia , Yerevan: Working Stays at the Alexsanyan Institute of Epidemiology, Virology and Medical Parasitology
09/2015	Uzbekistan , Samarkand: Organization and management "Workshop on molecular diagnostics of parasitic diseases", Isaev Research Institute for Medical Parasitology
05/2009	Brazil , Rio de Janeiro: Organization and management of the "Workshop on Molecular Epidemiology of Leishmania", FIOCRUZ - Fundação Oswaldo Cruz
02/2008	Venezuela , Maracay: Organization and management of the "Workshop on Molecular Epidemiology of Leishmania", Universidad de Carabobo, BIOMED-CNRFV
01/2008	India , New Delhi: Institute of Pathology (ICMR), Safdarjung Hospital
11/2007	Portugal , Lisbon: Course instructor "Workshop on Microsatellite Analysis Universidade Nova de Lisboa, Instituto de Higiene e Medicina Tropical
12/2003 I	India , New Delhi, Calcutta, Patna, Varanasi: German-Indian Seminar "Leishmaniasis: epidemiology, population dynamics, immunology and immune prevention"(DFG Indian National Sciences Academy)
