

Dr. Marina Müller

Professional experience

- Since 2018 - present Head of Working group “Fungal Interactions”
Scientific staff RA1 “Landscape Functioning”
Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg
- 2015 -2017 Head of Research area Organismic Interaction Biology
Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg
- 2009 - 2015 Assistant Head of the Institute of Landscape Biogeochemistry at
the Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg
- 2007 - 2009 Interim head of the Institute of Landscape Biogeochemistry at
the Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg
- 2005 - 2006 Scientist at the Institute of Landscape Biogeochemistry at the
Leibniz Centre for Agricultural Landscape Research (ZALF)
Müncheberg
- 1994 - 2004 Scientist at the Institute of Primary Production and Microbial
Ecology at the Leibniz Centre for Agricultural Landscape
Research (ZALF) Müncheberg
- 1991 - 1994 Scientist in the KAI-WIP Group Paulinenaue in a close thematic
association and cooperation with the Leibniz Centre for
Agricultural Landscape Research Müncheberg
- 1981 - 1991 Scientist at the Institute for Forage Production at the Academy of
Agricultural Sciences of the GDR

Education

- 1989 PhD Thesis; Thesis title: "Investigations of occurrence and
myvotoxin production of fungi in the genus *Alternaria*"
- 1976 - 1981 Studies in Microbiology at the Ernst-Moritz-University Greifswald;
Diploma
