

# Dr. rer. nat. Martin Wegehenkel

## Professional experience

since 2018	Senior Scientist at Research Area 2 "Land Use and Governance" at ZALF
07/1992 - 12/2017	Senior Scientist at the Institute of Landscape Systems Analysis at ZALF
04/1992 - 06/1992	Self-employed scientific associate in different engineering offices and self-employed landscaper in Freiburg i. Br.
09/1991 - 03/1992	Postdoc at the Institute of Physical Geography Dept. Climatology of the University of Freiburg, lectures in climatology and remote sensing
06/1986 - 07/1991	Scientific employee at the Institute of Physical Geography Dept. Hydrology of the University of Freiburg, within the third-party project "Modelling of water balance components using remote sensing data" LOF33/87 funded by BMBF
1977 - 1986	Study of geography and hydrology at the Albert-Ludwigs-University in Freiburg i.Br., diploma as a geographer in January, 1986; Title of the Diploma-Thesis "Hydrochemical analysis of an silty ground water reservoir"
1975 -1977	Accomplishment as a Landscaper, Lahr, Germany Sept. 1977 Final Examination
Juni 1975	Final Examination

## Education

August 91	PhD-Thesis "Contribution for regional modeling of evapotranspiration and soil moisture"
-----------	---

## Service to the scientific community

- Member of ATV-DVWK and DBG

## Editor/tasks for trade journals

- Reviewer for the following journals: Archives of Agronomy and Soil Sciences, Ecological Modelling, Environmental Geology, Hydrological Sciences, Hydrology and Earth System Sciences, Journal of Plant Nutrition and Soil Science, Physics and Chemistry of the Earth, Water Resources Management
