

1. Long version: for webnews

Planetary Justice and Societal Responsibility in International Sustainability Sciences and Scientific Cooperation

March 13-14, 2024 | Virtual

About the Conference:

Sustainable solutions to global challenges require international cooperation between scientific and civil society actors from very different contexts. Against the background of global responsibility with regard to sustainability, this concerns in particular the cooperation between actors from the Global North and South. Due to different cultural or socio-economic circumstances and a larger set of ethical considerations relevant in an international sustainability context, it is necessary to jointly reflect on the question of research in societal responsibility with international partners.

Join us for this conference, where experts and researchers engaging in international sustainability research from the Global South and the Global North will come together, jointly examine the extent to which Sustainability Sciences do justice to different aspects of societal responsibility, to what extent understandings and conditions differ in the international context, and what role reflection criteria such as those developed in the LeNa Shape project (Project website: <https://www.nachhaltig-forschen.de/>) can play in international sustainability science and scientific cooperation. Our collective aim is to foster a collaborative reflection on Societally Responsible Research, particularly in the context of global North-South collaborations.

Call for Participation:

We invite researchers, scholars, and practitioners to join us in the conference. Share your insights, research findings, and innovative approaches in areas including (but not limited to):

- Ethical considerations and dilemmas faced in research partnerships between the Global North and South
- Embracing diversity: knowledge integration and acknowledging multiple knowledge systems
- Quality criteria and defining scientific excellence across borders
- Evolving perspectives on Global North-South collaborations
- Use of Real World Laboratories
- Maximizing local societal impact: strategies for international collaboration research projects
- Enablers and applied solutions for responsible research
- Integrating Societal Responsibility in Science-to-Policy translation

...and more!

Why Attend?

- Engage with global experts in sustainability sciences
- Contribute to the dialogue on societal responsibility
- Explore innovative approaches to societal responsible research
- Network with like-minded professionals and academics

How to join us:

To participate in the conference, please complete your registration through this link before 29 February 2024:

https://live.letsgetdigital.com/3399-responsible_research/link/FRM-654cf75905605/

You also have the option to scan the provided QR code for registration:

For additional information and updates, visit our event website:

https://live.letsgetdigital.com/3399-responsible_research/virtualevent/

Please be aware that this conference has limited capacity, so early registration is strongly recommended.

Important Dates:

Registration Deadline: 29 February 2024

Conference Dates: 13-14 March 2024

Plenary and Keynote Speakers:

Prof. Dr. Katharina Helming: Leibniz Centre for Agricultural Landscape Research (ZALF), Germany

Prof. Dr. Frank Biermann: Utrecht University, Netherlands

Prof. Dhanasree Jayaram: Manipal Academy of Higher Education (MAHE), Karnataka, India

Scientific Committee:

Prof. Dr. Achim Schlüter: Leibniz Centre for Tropical Marine Research (ZMT)

Dr. Sebastian Ferse: Leibniz Centre for Tropical Marine Research (ZMT)

Dr. Rajesh Tandon: Participatory Research in Asia (PRIA)

Dr. Pragya Chaube: Participatory Research in Asia (PRIA)

Milka Chepkorir: Defending Territories of Life at ICCA Consortium

Dr. Moritz Maikämper: Academy for Territorial Development in the Leibniz Association (ARL)

Prof. Dr. Katharina Helming: Leibniz Centre for Agricultural Landscape Research (ZALF)

Dr. Stefan Sieber: Leibniz Centre for Agricultural Landscape Research (ZALF)

Dr. Michelle Bonatti: Leibniz Centre for Agricultural Landscape Research (ZALF)

Dr. Lasse Loft: Leibniz Centre for Agricultural Landscape Research (ZALF)

Prof. Dr. Heidi Webber: Leibniz Centre for Agricultural Landscape Research (ZALF)

Dr. Katharina Loehr: Leibniz Centre for Agricultural Landscape Research (ZALF)

Organizers

Leibniz Research Network 'Knowledge for Sustainable Development' (LfN Sustain)

Leibniz Centre for Tropical Marine Research (ZMT)

Leibniz Centre for Agricultural Landscape Research (ZALF)

Academy for Territorial Development in the Leibniz Association (ARL)

2. Short version: For Twitter or Facebook social media platform

 Join us for anl virtual conference on Planetary Justice and Societal Responsibility in International Sustainability Sciences!

 Dates: March 13-14, 2024

 Register: [https://live.letsgetdigital.com/3399-responsible_research/link/FRM-654cf75905605/] & check out our website for more info: [https://live.letsgetdigital.com/3399-responsible_research/virtualevent/]

 About the Conference:

Dive into discussions on the role of international cooperation in sustainability, the interplay between Global North & South, and the impact of cultural and socio-economic diversity on research. We're bringing together experts to reflect on the societal responsibility within Sustainability Sciences.

 Speakers include Prof. Dr. Katharina Helming, Prof. Dr. Frank Biermann, and Prof. Dr. Dhanasree Jayaram, and others

 Call for Participation:

We're inviting contributions on topics like ethical dilemmas in research partnerships, knowledge integration, scientific excellence across borders, and much more!

 Why Attend?

- Engage with global sustainability leaders
- Contribute to important dialogues on societal responsibility
- Discover innovative research approaches
- Network with professionals & academics

 Important Dates:

- Registration deadline: 29 February 2024

- Conference: 13-14 March 2024

😊 Organized by the Leibniz Research Network 'Knowledge for Sustainable Development' and partners.

For any inquiries, reach out to: jjalin.zhang@leibniz-zmt.de
